

CATCH SEASON FOUR OF *THE FLASH* ON IFLIX, EXPRESS FROM THE U.S.

The highly anticipated fourth season of The Flash returns to iflix, with new episodes available every Wednesday

Yangon, 28 November 2017– iflix is thrilled to premiere the latest season of the worldwide hit DC Super Hero TV series *The Flash* from Warner Bros. Television. Starting October 11, iflix subscribers in Malaysia/ the Philippines / Thailand / Indonesia / Sri Lanka / Pakistan / Vietnam / Myanmar / Cambodia will be able to stream or download new episodes weekly, within 24 hours of the initial U.S. broadcast.

After three seasons of running, you'd think Barry Allen (Grant Gustin) would deserve a break. He's faced his evil-twin time remnant, saved his fiancée from the God of Speed and even sacrificed himself to stabilize the Speed Force. The fourth instalment of *The Flash* finds Team Flash doing their best to keep moving forward without the Scarlet Speedster and to defeat all the threats that come their way. However, when a new villain too powerful for them arrives in Central City, the team realizes that there is only one person that can help – The Flash. Now, the team must devise a plan to free their friend from the Speed Force before the city is destroyed... knowing that the Flash that comes out of the Speed Force may not be the same hero as the one who went in it.

Arriving as next season's central Super-Villain in Central City, Neil Sandilands (*The 100*, *The Americans*) will play DC villain Clifford DeVoe, aka The Thinker, a metahuman with a mega mind who embarks on a season-long battle with The Flash that pits the "fastest man alive" against the "fastest mind alive."

Warner Bros. Television's *The Flash* joins iflix's extensive library of popular international titles fast-tracked from the U.S., including critically-acclaimed *Mr. Robot*, hit comedy *The Good Place*, *Channel Zero: No End House*, and *Lee Daniels' STAR*.

iflix Group Chief Content Officer, Sean Carey said: "Team Flash meets all new challenges and characters on the latest season of *The Flash*, and we are thrilled to give our subscribers front row seats to the action. For the first time on iflix, fans of *The Flash* can now catch new episodes weekly just 24 hours after they air in the U.S., underpinning our commitment to providing iflix subscribers with the latest episodes of the world's most popular shows along with the best local and regional titles available."
